PROFILE

4+ YRS

3D motion designer blending **3D/CGI, motion graphics and AI-powered video** for national ad campaigns — automotive hero shots, animated product films and brand launches. Owns shots end to end from modelling to final render, and integrates AI into the pipeline with **image-to-video and 3D-to-video** workflows (Higgsfield, Magnific) and Claude / ChatGPT. Delivered for **TVS Apache, Yamaha, Toyota, Xiaomi, Eureka Forbes** and **Embassy Group**.

EXPERIENCE

2021 →

3D Motion Graphic Designer · Creolor

MAR 2026 — PRESENT · BENGALURU

- Design and animate **3D motion graphics** for 2D & 3D commercials, 360/VR films and ad films — from concept frames to final render.
- Integrate **AI into production** — image-to-video and 3D-to-video generation with Higgsfield and Magnific, and Claude / ChatGPT-assisted workflows.

3D Generalist · Yuga Films

SEP 2021 — FEB 2026 · BENGALURU

- Owned the **full 3D pipeline** on TVC and digital campaigns — modelling, texturing, animation, lighting, rendering and basic simulations — through to broadcast-ready delivery.
- Specialised in automotive CGI**, producing photorealistic hero shots and feature films across Yamaha's national two-wheeler launches.
- Animated product films end to end** for consumer electronics and appliance brands, working with directors, DPs and editors so CG sat correctly against live-action plates.
- Optimised scenes and render settings** in Cycles and Keyshot while running 3–4 concurrent briefs against tight broadcast deadlines.
